

How does our school spend Title I money? (\$198,690)

Most of our Title I money is spent on personnel. Through Title I funds, we are able to employ a part-time academic coach (77.5%) and a parent coordinator (100%). The remaining funds are spent on instructional materials, classroom technology, supplies, and professional learning. As a district and in conjunction with federal guidelines a small percentage of our Title I Money is allocated to have Family Engagement Coordinators at the District Level.
